Dear Pet

Some time ago I advertised for a man & wife on my farm. I had an answer from E A Tabb – The job had been filled before I read his application – however I wrote him telling him I was interested in the Tabb genealogy & to tell me something about himself. The enclosed cover from him – he knows more about his family than I do about mine – all I know is Geo. W. married Mary C. Wilson - & the results: back of that I know nothing. That it would be interesting to you. Return to me with such information as you think would interest him – Jr was excused by the draft board. Waiting for C's fate to be answered.

Yours Willis

On the back of the first page of this note is the following: "Pet" is Mrs. Mary Park Stratford, eldest sister of Willis Creighton Tabb. She died in Jan'y 1928, in Denver at the age of 86. Through her we have the genealogy as far back as she could find it.
