Whatever your pace you will find enjoyment at the Port of Newcastle. Come check us out, you'll meet some of the nicest people you'll find anywhere!

Key to Hospitality

We were fortunate to have three of our crew back this summer as well as two new staff. All of our staff are trained in customer service and hospitality management while working at the Port of Newcastle. These students work long hard hours yet, are fun to work with. They really care about our customers and go the extra step.

Now that the summer is over, Tina has returned to Trent University for second year math, while Kirsty Stephenson is at the University of Toronto studying pharmacy. Elaine Comery will be back at Guelph after having spent the fall touring Europe as part of study program. Kim Whittick who is in her final year at Trent University is preparing for a three week tour of duty in the U.K.

NEWCASTLE YACHT CLUB

Many of the boaters at the Port of Newcastle are also members of the Newcastle Yacht Club. Over the years co-operation between the marina and the yacht club has resulted in the successful co-hosting of a variety of fun filled events.

In addition to activities such as the Commodore's party and sail past, club

racing, weekend cruises, tennis tournament and winter skating party, the club has been responsible for co-ordinating a recycling program at the marina.

In 1994 we are encouraging more resident boaters to join the yacht club, particularly power boaters.

'93 Was Great - '94 Will Be Even Better!

In 1993, the summer weather was outstanding and our transient business was up 20%

Now that recession has bottomed out and boat sales have been improv-

ing, the indicators are that 1994 will be an even better year for boating activities whether you fish or sail.

We have great plans for an exciting event filled

summer season in '94. We're starting off with a winter skating party for young and old with lots of food and refreshments for everyone.
