

Key People Involved in the Avro Arrow Programme

This page is a series of links and information (pictures, biographies, and the like) about people involved with the Avro Arrow. In keeping with the spirit of the page, information is presented here without editorialising. I want to allow the access to information without forcing my viewpoint down your throat.

With that said, I must indicate that most of this information is presented by authors other than myself, and I am merely providing links to their pages.

May you find their efforts enlightening

Here is the list of Arrow people and their links.

- Joni Miller pointed me towards the [George R. Pearkes](#) website. The Right Honourable Mr. Pearkes was Minister of Defence in Diefenbaker's cabinet at the time of the Arrow cancellation.
 - Most of the next items are from the [Canadian Aviation Hall of Fame](#) which is a site replete with bios about many fine aviation type Canadians.
 - [James Floyd](#) Chief Engineer on the Arrow, and one of my personal heros. [Further Information](#) is found here about James Floyd.
 - [C.D. Howe](#) *The Minister of Everything* has a short bio here.
 - [Janusz Zurkowski](#) chief test pilot on the Avro Arrow.
 - [Jack Woodman](#) (Avro Arrow test pilot) has a bio here.
 - [John Plant](#) (President and General Manager of Avro Aircraft).
 - A [Biography of Dr. R. Bryan Erb](#) who now works for the CSA but was employed by Avro on the Arrow project.
 - Who else but [John G. Diefenbaker](#) should have info on the web
