Our friendship with Gordon dates back to 1952, during an earlier of Gordon's outstanding careers. We were engineers together at A.V. Roe Manchester, England, before we each came to Canada: Gordon and family to A.V. Roe Toronto. When the Avro Arrow was terminated, Gordon was one of some three hundred engineers retained, with thousands losing their employment.

Gordon however chose Dentistry instead, to the immense benefit, I am sure, of many Deep River residents, and generously also to my family during some difficult times in Ottawa. Gordon and Renee's hospitality to my family in our visits to Deep River included gliding and water skiing for our boys. Moira Butt, now in England with Jack Butt, will I am sure join me in this appreciation of Gordon Esilman, and in our condolences to Renee and the family.

Dr. Gordon and Renee Esilman, Gordon and I worked together in 1952 at Hawker-Siddeley Avro Aviation flight test, Woodford, Cheshire, U.K.. He joined Avro Canada in Toronto at about the same time that I joined Canadair Ltd. in Montreal (1954.). Although retained by Avro Canada at cancellation of the Avro Arrow, he chose to study and graduate in dentistry at the University of Toronto, and then practiced dentistry in Deep River, Ontario for many years.. Our families have been friends for some fifty years.
