Dear Doug:

This will confirm the information given by phone recently.

The expert on fan design(ex Canadian Pratt & Whitney) is John Raw. I don't have his address but he lives at Qualicum Beach on Vancouver Island. His phone number is 250-752-7366, which I believe I gave you by phone.

Following our conversation I called John, just to let him know I had established contact with you and that he might expect to hear from you or one of your colleagues. I strongly recommend that you make use of his expertise or, at least consult with him. He has a top reputation in his field.

I was most impressed with the 1/5 scale model of the Jetliner at Wetaskiwin and wish to convey my great admiration and best wishes for undertaking this very ambitious project. I hope, one day, to see it in flight.

Kind regards,

---

Paul B. Dilworth
