### *Blame for Avro Firings*

Why not put the blame for letting out the Avro workers where it belongs? To my way of thinking it is with the supposedly top men at Avro—they knew what was going to happen last September, so why did they not get out and sell their "merchandise" as other manufacturers have to do?

One of your readers suggests that Canadian taxpayers would buy bonds to support Avro. Can you imagine anyone in his right mind putting money into a company whose president fires his whole factory staff because the Government won't spend the taxpayers' money on his obsolete aircraft?

We all submit tenders for Government contracts, and when we don't win, we have to go out and work all the harder, not behave like small boys who take their marbles and go home.

Chatham.

James E. Sutcliffe  
(Major Retired).
