

First 50 years of powered flight in Canada

1909-1959

From the DART in 1909 to the Arrow in 1959 a pattern of aeronautical accomplishment has been dramatically recorded in Canada. The past half century of Canada's growth and increasing stature has been greatly accelerated by the swift and vigorous momentum of the men and machines of the Air Age.

Well established in the Jet Age, Canada's aeronautical resources will continue to meet the urgent requirements of a nation on wings.
