England

**Death Location:**

St. Peter's Hospital, Hamilton, ON

**Worked For:**

Avro Canada

**Position:**

Engineer on Avro Arrow

**Obituary (online):**

**Obituary for Leslie Walter Thomas**

Reunited with his wife, parents and sister January 6, 2019. Les lived to the age of 96 and got to enjoy his two grandchildren, Jordan and Evan and see them grow up. He had one daughter, Linda, who he lived with after the passing of his wife Olive, he was cared for by Linda and his son-in-law Dennis. He was an engineer by trade, and worked in England where he was born, on the Spitfire planes. He took that skill to Canada where he worked on the Avro Arrow, had his own business and eventually worked for Rothmans, Benson & Hedges to his retirement. He loved to travel, garden and had a love of animals and owned many throughout his life. Many thanks to the nurses and staff at St Peter's Hospital in Hamilton. You were amazing! In lieu of flowers please consider a donation to St Peter's Hospital or the CNIB.

"Dad you will be dearly missed, xoxox"
