

Hello Fred,

I thought I should pass along two items that could be added to your records in the Avro museum.

One is my 2018 correspondence from Fred Matthews, who passed away on Oct 25, 2019. I had received his contact information from Palmiro Campagna and sent him a complementary copy of my book. The second is a wedding card that my father received from his Avro colleagues when he got married (on May 1, 1954). It was signed by the "Avro Mob" and has a type-written list of all the people who contributed to the wedding gift. I am sure that many of the names are already in your employee list, but perhaps there are a few names that could be added.

I have decided to put a hold on my plans to visit Calgary until the covid situation improves. Let's hope it won't take too long.

All the best,
David

*With the happiest thoughts
and best of good wishes for you both*
