

ON GUARD IN CANADA...IN EUROPE...
AND FOR THE FUTURE...THE AVRO ARROW

From the first flight of the Mark I CF-100 in 1950, the development and performance of this all-weather interceptor for the Royal Canadian Air Force has won for it the role of front line defender in North America and Western Europe.

The Avro Arrow, recently unveiled, begins an intensive pre-flight testing program. Under development for the interception role of the RCAF in the new North American Defence Command, the Arrow will have supersonic mission capabilities.
