GRUMMAN AEROSPACE F/A-18 TOMCAT

The F/A-18 is a variable geometry, swept wing, supercarrier-based fighter for the U.S. Navy. This is the aircraft flown by the character "Maverick" in the movie "Top Gun". The F/A-18 is capable of speeds in excess of Mach 2 and designed to track 24 enemy fighters while firing upon 6 of them simultaneously from a distance of up to 100 miles. The Tomcat is armed with a 20 mm Vulcan gun as well as various combinations of air-to-air missiles and bombs.
