

Harold Rawson

Harold was a process planner in Avro Canada's Experimental Progress Dept. He joined in 1951 and was let go on Black Friday. Harold's family provided photos that include these from Fort Churchill for Orenda Engine cold weather testing:

Another image that the family shared is of Harold when he was 33 years old in 1948:

SOUTHERN CENTRE PICTORIAL REVIEW

At 23, H. RAWSON has the outstanding ability of riding and winning on bicycles of his own make. He started his career in 1932 and rode until 1935. He is now engaged (when not in the saddle) in building a new 500 c.c. job.

Although this is his first year of Grass Racing, J. CARTER is already making a name for himself on his 350 c.c. Velocette.

In 1946, after seven years in the Army, 27 year old JIM SQUIBB rides for Southampton Grass Team on Matchless and J.A.P. He also represents Soton on the "dirt" after only one trial. We shall see more of this up-and-coming rider.

From his 1954 family camping trip in Canada near Ottawa:

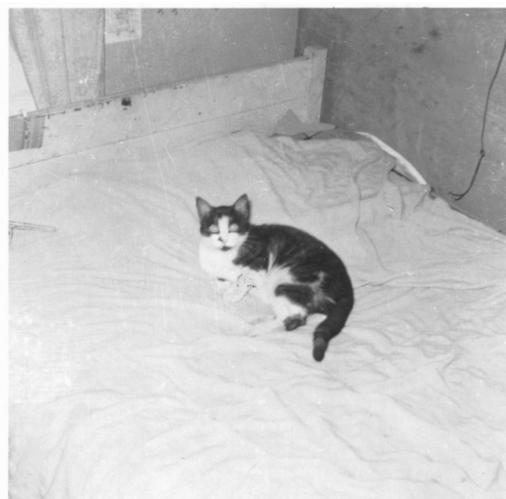

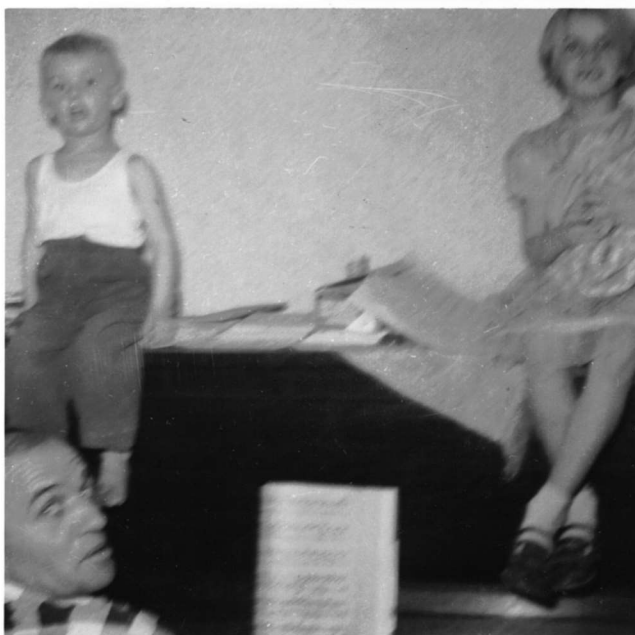

Harold had just
filleted a fish for breakfast.
