

**EXECUTIVE JET.** This prototype of the ten passenger Lockheed jet transport was built in 30 weeks. It is a contender for the USAF fast multi-purpose jet requirement, but is also designed for commercial service. First flight was made during last month.

### Brazilian Purchase

The Brazilian airline, REAL-Aerovias, has ordered four Convair 880 jet transports from Convair Division of General Dynamics Corp. TWA has a fleet of 30 Convair 880's on order, Delta has ordered 10, and Transcontinental, new Argentine line, has purchased four. Deliveries will commence late 1959.

### August High for AA

New records for August passenger and cargo traffic are reported by American Airlines. The figures were some 725,000 passengers carried more than 482,000,000 revenue miles and air freight totalling 7,685,000 ton miles all well above totals for the same month last year.

### Fairchild Expansion

An extra 175,000 square feet of plant space will be provided by extensions in hand at the Fairchild Engine and Airplane Corp. The additions are being made at the Aircraft Division at Hagerstown, Md., the Engine Division at Deer Park, Long Island, N.Y., and the Stratos Division at Bay Shore, Long Island.

## YOU CAN DEPEND ON TIMMINS AVIATION LIMITED FOR COMPLETE MAINTENANCE AND SERVICE

Canada's Only One-Stop Service for Business Aircraft

Only Timmins Aviation Limited offers complete one-stop service to Canadian Business Aircraft . . . conversion, overhaul and modification.

Timmins provides the services and skills of 150 technicians and engineers together with well-equipped shops, well-stocked inventories, Radio Division and Instrument Service. You can depend on Timmins for *everything* your Business Aircraft needs.

In one stop — complete and dependable facilities for custom interiors, modification, overhaul, 100 hour inspection, parts, accessories, engines, electronics and radio.
