CANADA'S AERO TRADE MAGAZINE

Take off FOR **AVRO AIRCRAFT**

A world-famous name sharing a heritage of 46 years of flight takes off on its new career. With its own established record of design and production achievements reflected in the constant output of CF-100's for the R.C.A.F., AVRO Aircraft assumes an independent and experienced role in world aviation.

Already successfully test-flown for nine years, the new Company will direct the efforts of 10,000 experienced designers, engineers, technicians and skilled production workers. Assurance that AVRO Aircraft can meet the increasing demands of the Jet Age is confirmed by the proven development record of its extensive engineering staff, every member of which is constantly at work on aeronautical research and design for the future.

With management and policy unchanged, AVRO Aircraft continues to discharge its responsibility as one of the main industrial arms of the R.C.A.F. and through present and future projects reinforce and maintain Canada's air defence.
