CAS

ARROW Cancellation - Disposal of Materiel

With reference to your memorandum of March 26th on the above subject, my understanding of the proposal is as follows:

- a) There is no intention of attempting to fly or maintain in service the completed aircraft.
- b) Every effort will be made to salvage engines, instruments and parts that can be used or returned to the original supplier for credit.
- c) The aircraft, as whole aircraft, will not be put up for disposal but will be reduced to scrap after all useful and creditable materiel has been removed.

On the above understanding I agree to your proposal.

MINISTER

George Pearkes, Minister of National Defence, concurs with the recommendation to scrap the Arrow. (DIRECTORATE OF HISTORY RECORDS, DEPARTMENT OF NATIONAL DEFENCE)
