IT'S OFFICIAL ::: F-35 to be Replaced by Stealth Super Arrow

April 1, 2013

2:32pm

CANADIAN INVOLVEMENT in the F-35 program ended just a few minutes ago as the Harper Government tabled and voted for...an all-Canadian replacement to the troubled Lockheed-Martin offering.

An purchase order HAS ALREADY BEEN SIGNED by Harper's Conservatives for an initial order of 200 Stealth Super Arrows at the very same cost as the original F-35 procurement.

The Super Arrow will be manufactured in Toronto at a new aerospace plant that is being built right now at the old Avro Canada YYZ site!

BEAVERWORKS has the produced the first visuals for all Canadians to see.

Take a gander: www.superarrow.ca/
