

Stability and Control.

(F. Heap)

- 1.1.1. → 1.1.4. - Analysis of Tunnel Test as required.
- I - Supersonic Wind Tunnel Test - M. I. Paul
 - II - Transonic " " " - J. Wassenaar
 - III - Subsonic " " " - R. McKee
 - IV - Hovering & Transition Tests - "

1.1.8 - Studies, Analysis & Tests to Further Establish the Stability & Control Characteristics

1.1.8.1 - Reduce Aerodynamic Instability.

1.1.8.2 - Flight Safety Characteristics

1.1.8.3 - Reliability of Control System

1.1.8.4 - Flight Limitations due to Stability & Control

1.1.8.5 - Stall & Post Stall Motions.

1.1.8.6 - Control Systems for Hovering, Transition & Forward Flight.

In addition PV. 704. Items as follows.

Frequency Response Rig, No. 1

Unit Development.
