

Arrow Project End Protested By Veterans

Brantford, Feb. 22 — Victor Bishop of Brantford said today that the Federation of British-Canadian Veterans of Canada has objected to the Federal Government's decision to discontinue production of the Avro CF-105 Arrow jet interceptor.

Mr. Bishop, Dominion president of the federation, said the group has passed this resolution.

"If the prime minister is not inclined to reinstate the Arrow as a point of future Canadian defense, we deplore the use of the U.S.-made Bomarc missile, especially in regard to the ultimate control of the atomic warhead."

Mr. Bishop said copies of the resolution have gone to Prime Minister Diefenbaker, Canadian Legion, Canadian Corps Association and the Army, Navy and Air Force Veterans of Canada.
