

Staff appointments at Collins Radio Co. of Canada Ltd., Toronto 16, Ont., include that of **M. Binions** (above) as commercial sales manager for Canada. Mr. Binions will head a new commercial division in line with Collins' plan to increase emphasis on the Canadian commercial market of communications and aviation products. Succeeding Mr. Binions in his former post of Ottawa resident manager is **Arthur R. Hewitt**, who retired recently from the RCN. He was Director of Supplementary Radio Activities.

New vice-president and general manager of Avro Aircraft Ltd., Malton, Ont., is **Fred P. Mitchell**, former assistant general manager and chief engineer. He will also direct the activities of the engineering department of the company.

The position of engineering department head for systems, of the Sperry Gyroscope Co. of Canada Ltd., Montreal, Que., has been filled by **Dr. J. F. Perrier**, P.Eng. (above). At Canadair from 1955 to 1960, Dr. Perrier participated in the Tartar missile proposal to the RCN, assisted in weapon system studies for the Velvet Glove and was responsible for preparation of missile flight test programs in connection with Sparrow II. He also participated in the communication system proposal for NORAD.

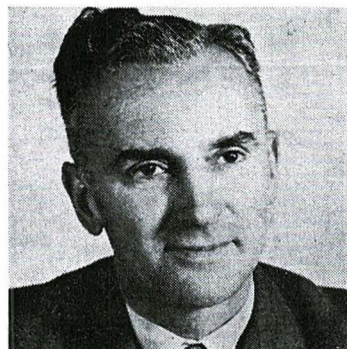

Retirement of **A/V/M J. G. Bryans** as Air Officer Commanding Training Command of the RCAF is announced. He will be succeeded by **A/V/M H. M. Carscallen**.

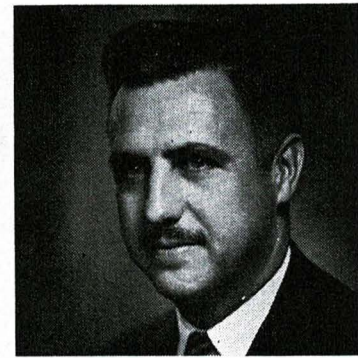

In reporting the appointment of **William Kenneth Ebel** to the Washington office of General Dynamics Corp., from Canadair Ltd., Montreal, Que., the wrong photograph was used in the October issue. The correct picture appears above.

Four new appointments for senior personnel at Canadair Ltd. were announced late last month by J. G. Notman, President and General Manager. Effective the first of this month, **Fredrick R. Kearns**, former Vice-President and Comptroller is Executive Vice-President Sales and Finance; **John Urwin**, who was Secretary and Treasurer and Legal Adviser, is appointed Vice-President and Secretary; **John B. Hunter**, former Assistant Comptroller, is now Comptroller; **Theodore C. Pawlette** is appointed to the position of Treasurer.

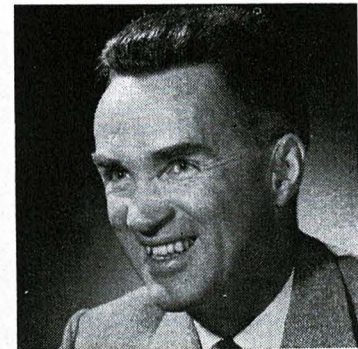

Increasing emphasis on Canadair's efforts in the marketing of cargo aircraft is underlined by appointment of **T. Gilbert Dunkin** as assistant manager, sales engineering. He will be mainly concerned with presenting the operational economics of the Canadair Forty Four swing-tail freighter to cargo-carrying airlines and other potential customers.

Fairey Aviation Co. of Canada Ltd. announces the appointment of **E. C. Garrard** (above) Associate Fellow of the Canadian, British and American Aeronautical Institutes, as special projects manager. He will deal with projects beyond the normal overhaul, repair and modification activities of the company. Mr. Garrard has 25 years' continuous service with the Fairey Group, and came to the Canadian company in 1950.

Election of **William J. Mann** (above) as executive vice-president and a director of Canadian Curtiss-Wright Ltd., Montreal 25, Que., is announced. He joined the company in 1956 as sales manager, and served as general manager prior to this latest promotion.

As reported earlier, Trans Aircraft Co., Hamilton, Ont., recently opened a sales office at Cartierville Airport, Montreal, Que. **Stuart E. Alexander** (above) is appointed in charge of the new Montreal branch. He joined the company in 1956. Trans Aircraft also have branch offices in Toronto and Calgary.

Appointment of **A. W. Baker** (above) as contract manager is announced by Fleet Manufacturing Ltd. He was formerly assistant manager and sales manager of Garrett Manufacturing Ltd. At Fleet he will direct a program aimed at broader utilization of the firm's Fort Erie plant facilities. Wartime ferry pilot and flight engineer, Mr. Baker at one time worked with Avro as a member of the Avro Jetliner aircrew.
