

FIELD AIRCRAFT SERVICE... people

- FAST
- ECONOMICAL
- EXACTING STANDARDS

RIGHT — PAINT and FABRIC shop recovers, reconditions fabric surfaces; repaints to specifications.

BELOW, Field has the facilities and know-how for all types of custom radio installations in executive and commercial aircraft.

ABOVE RIGHT, Field is equipped to do all manner of aircraft and modification work. Here the flight engineer's controls are being moved from a PBV tower to the pilot's position.

RIGHT, Field conducts highly precise machine shop activities for the aircraft industry, specializing in the manufacture of thermodynamic and aerodynamic instruments. A corps of trained engineers is always available to field customers.

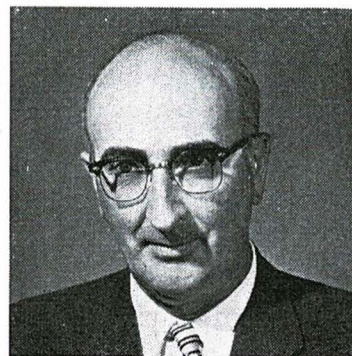

Field Aviation has complete facilities at Oshawa and Calgary to handle all but the very largest aircraft. Approved by the Department of Transport and the RCAF, Field serves private owners, fleet operators, leading Canadian industries and makes a specialty of Aircraft salvage, repair and rebuild for underwriters and others. Canadian representative for Beech products, Field also provides certified Beech servicing facilities.
