The Diefenbaker Legacy: Canadian Politics, Law and Society Since 1957 brings together selected papers that were presented at a conference held at the University of Saskatchewan on 6-8 March 1997, sponsored by the Departments of Political Studies and History, the College of Law, and the Diefenbaker Canada Centre. The conference marked the fortieth anniversary of the advent to power of John Diefenbaker as prime minister of Canada. The publication is not the conference proceedings but rather the best papers delivered at the conference as determined by the volume's editors.

The papers are written by both established and new scholars in the fields of history, political science, and law, drawn from Canadian and American universities. Drawing upon recently opened archival documents and public papers pertaining to the Diefenbaker period, the authors provide a retrospective look at the domestic and international political issues and policies grappled with by the Diefenbaker

government during an era of significant political and social change. They attempt to assess the legacy of Diefenbaker and his government's policies and decisions in different aspects of Canadian public policy and in the political culture in the years and decades that followed.
