

Pushing back  
the frontiers  
of tomorrow...

# RCA VICTOR DEFENCE ELECTRONIC SYSTEMS

At RCA Victor, today's drawing boards reflect tomorrow's advances in Defence Electronic Systems technology. RCA Victor engineers are concerned daily with the research, development and production of the Defence Electronic Systems that play so vital a part in Canada's defence planning.

One example of their work: the integrated electronic system to be used in Canada's first supersonic plane — the Avro Arrow.

The search for the talent so necessary for work of this nature will never end. Perhaps you — or someone you know — is an engineer who would like to work with RCA Victor — and meet its creative challenges in this stimulating field. If so, simply contact Dr. J. J. Brown, RCA Victor Company, Ltd., 1001 Lenoir Street, Montreal, Quebec.
