

People (Continued)

Frank L. Trethewey has been appointed assistant to the president of Orenda Engines Ltd., Malton, Ont. He continues to serve also as a director of the company.

Other Orenda appointments include that of **Paul Y. Davoud** as vice-president, sales and service; **Kenneth R. Church** as vice-president, finance, and treasurer; and **John H. Ready** as secretary.

Newly appointed district supervisor of field engineering with the ElectroData division of Burroughs Adding Machine of Canada Ltd. is **W. J. McDowell**. Mr. McDowell was formerly working with Computing Devices of Canada Ltd. on development of special computer products. He will supervise field engineering and maintenance services in Eastern Canada.

Management reorganization of Bristol Aircraft (Western) Ltd. has resulted in **D. A. Newey**, former contracts manager, becoming materials manager. He will be responsible for material supplies, procurement and stores. The contracts and sales departments have been amalgamated and are now headed by **V. R. Symonds**, sales and contracts manager.

Appointed technical representative of the Bakelite Company, Division of Union Carbide Canada Ltd., Toronto, is **J. Ray Morris**. The company supplies plastics to the aviation and other industries in Canada.

Charles Connolley, of Honeywell Controls Ltd., Toronto, is with the 1st Air Division headquarters RCAF, serving with the NATO forces. He is on a contract assignment with the RCAF, working in co-operation with bases in France, Germany and England. Mr. Connolley recently completed a year's field service work at Cold Lake, Alta.

K. W. Fraser is appointed manager of the Canadian Westinghouse Company's Pacific district, with headquarters in Vancouver. He will be responsible for sales of Westinghouse apparatus products throughout the Pacific district.

G/C C. B. Limbrick has been appointed military consultant to the Canadian Westinghouse Company's electronics division. He was formerly special weapons and communications expert at RCAF headquarters in Ottawa. G/C Limbrick will serve as consultant on technical requirements for military electronic equipment, and will assist in long term Westinghouse planning for military development projects.

J. M. Nicholson has been appointed chief test pilot of the de Havilland Engine Co. in succession to C. D. Beaumont. Mr. Nicholson undertook his advanced RAF flying training in Canada during the war.

A. C. Perkins has been appointed central Ontario sales representative of Measurement Engineering Ltd., Arran, Ont. He was formerly technical representative with Canadian General Electric Co. Ltd.

John C. Waugh is appointed manager of public relations of Vertol Aircraft Corp., Morton, Pa.

Donald R. Laemmermann is appointed field sales engineer with the Strato-power aircraft accessories section, Water-down Division of the New York Air Brake Co.

Formerly senior sales engineer of the Eclipse-Pioneer division of Bendix Aviation Corp., **E. A. Carpenter** has been appointed assistant manager of commercial sales. Eclipse-Pioneer sales group is devoted to the requirements of commercial aviation.

Council of the International Civil Aviation Organization has elected **Walter Binaghai**, of Argentina, as its president. He takes up his post during this month. Since 1949 he has been chairman of the ICAO Air Navigation Commission.

Fred E. Weick, aircraft designer and aeronautical engineer, is named director of the recently founded Piper Aircraft Development Centre. He will direct research and development of new Piper aircraft at the centre, located at Vero Beach, Fla. For the past nine years Mr. Weick has headed the aircraft research center at Texas A and M College System, College Station, Tex.

Dwight C. Hornberger is appointed manager of export administration at Beech Aircraft Corp., Wichita, Kansas. He has been assistant manager of the export division since 1955.

G/C Jean G. Archambault, of Outremont, Que., has been appointed as the first RCAF commandant of College Militaire Royale, in St. Jean, Que. He will take up the position in the summer.

The filling of key managerial positions in the Bell Aircraft Corp.'s recently established weapons systems division has been announced. Appointments were made public by vice-president Roy J. Sandstrom, general manager of the division. **Glenn R. Lord** becomes assistant general manager in charge of manufacturing. Named managers of the four separate units within the division were **John H. van Lonkhuyzen** chief of technical departments to manage the avionics division; **Jesse H. Zabriskie** chief test engineer to the guided missiles division; **John F. Strickler, Jr.**, assistant to the vice-president engineering to the research division; **William M. Smith** chief rocket engineer to the rockets division.
