To NATO from Canada

Camouflaged in official NATO colors and proudly flying the Canadian Ensign on their tails, the first Royal Canadian Air Force squadron of AVRO CF-100's to join NATO air defence in Western Europe, departs for its base in France.

This flight, the first of several scheduled to hop the North Atlantic this year and next, is Canada's response to a specific requirement of NATO for all-weather, night fighters.

It is one of Canada's contributions to the defence of Western Europe, while continuing round-the-clock interception alert in the defence of North America.
