Commander,
Air Materiel Command,
Wright-Patterson Air Force Base,
Ohio.

Attention: Lt. Colonel W. P. Harris, MCPER-F

Subject: Contract AF-33(600)-33522

Gentlemen:

1 The subject contract includes the requirement for incorporating Genie (WB-1) rocket in the Arrow Electronic System. Apparently, nuclear yield data held by RCA is out-dated. To permit the contractor to continue with the necessary development, one copy of the following report is required:

"Initial Nuclear Radiation from Low Yield Fission Weapons"
by: E. N. York, AFSCM Kirtland Air Force Base, New Mexico,
December 1956.

2 Owing to the Restricted Data classification, any arrangements be made to forward this report through the local USAF Plant Office directly to the company.

3 The instructions provided in Hq USAF TWX AFMPP-PA-2 512119 dated 18 Jan 57 for the safeguarding and release of Restricted Data information by the contractor are applicable.

Yours truly,
