

29/1/86

JOSEPH G. TOWNSEND,  
134, WESTERN ROAD,  
BLETCHLEY,  
MILTON KEYNES,  
BUCK'S MK2 3PQ,  
ENGLAND.

TO CHARLES FOLEY  
THE STUDENTS OF  
CONCORD HIGH SCHOOL.

I feel that the thousand of miles  
that separate our two countries is none.

As I also feel sorrow in my  
heart for this great tragedy, with the  
loss of seven people, like all  
America must.

It is always a great  
loss to lose someone close, but  
Christa was special, she was loved  
by millions of people across America.

Christa to me  
 seem to be a person who  
 loved all the people around  
 her, Steve her husband her  
 children Scot and Carolin and  
 of course you the students  
 of Concord High School.

Christa was a  
 adventurous person, whom when  
 setting her mind to doing some-  
 thing she would do it no  
 matter how hard the task was.

This flight was to  
 be the adventures of adventures, and  
 I'm sure that when the shuttle  
 took off, she was thinking with  
 great joy in her heart, how a  
 chance of a lifetime at come  
 true and for 72 seconds they  
 were possibly the best moments of  
 her short life.

I am sure the shuttle programme will continue and there will be another challenger, but the 72 seconds in this space shuttle tragedy, with the death of

COMMANDER - FRANCIS 'DICK' SCOBEE.

CO. PILOT - MICHAEL SMITH.

LT. COLONEL - ELLISON S. OMIZUKA.

SCIENTIST - RONALD McHAIR.

SCIENTIST - JUDITH RESNIK.

ENGINEER - GREGORY JARVIS.

TEACHER - CHRISTA McALLIFFE.

Will live in the memory of

many, many Americas for years  
to come.

From someone whom  
may be thousands of miles  
away, but feels ever so close.

Could I please have the  
address of Crista McPuliffe  
parents

Thank You

Joe

ROSE'S ARE RED,

VIOLET'S ARE BLUE,

'CHRISTA MCPULLIFFE'

'WHERE THINKING OF YOU,

WITH PENNIS FROM HEAVEN'

GO THE BRAVE SEVEN,

AND IT IS SO TRUE WILL

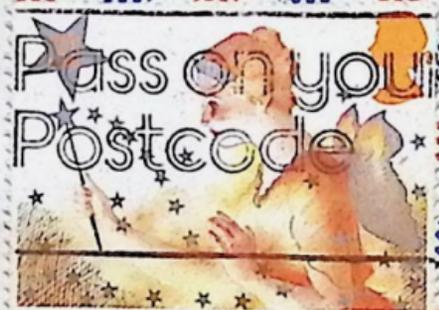

ALWAYS BE THINKING OF YOU'S.

Joe
