may God bless all of you:-

Dear Principal and loving students,

Hearing the bad news of burning the U.S.A Shuttle challenger we got too much grieve and shock. Afterwards hearing the news that loving students have lost their efficient teacher Mrs. Christa Meckleif. Really she was the best lady among the teachers. May God rest their soul which lost their lives for the noble deed and for the nation and for the coming generations of developed country.

So I have decided that a secondary school should be established or to be set up in Pakistan in the memory of Mrs. Christa. I would like to keep the name of school. "The Christa Memorial High School." The said school will be independent and christian institute. we are looking for the best and suitable place for building. The estimated cost

( I also would like to come on your invitation in respect of necessary arrangements),

of place and building construction will be about \$100,000 U.S.A dollars. By this way her name will always remain alive for the generations, nations and for the community. I therefore, would like to kind appeal for establishing the Secondary School's aid or help as contribution. Our family will run the school and can spend  $\frac{1}{4}$  of the total cost of expenses. We are qualified teachers and have got too much experience in this field.

Please send our grievous convey to all her students, her husband and her loving and sweet children. Could you Please write the correct spelling of her name for printing the documents for school purposes. Would you like to talk the area Governor or Mayor for the financial aid. I hope you will be able to arrange everything. I do hope for access to the authority. I hope that we can lay the foundation stone in the middle of April, 1986. Please send us autobiography of Mrs Christa as well as. After your kind and positive reply we shall arrange everything.  
with best wishes.

Thanks for acquiescense.

Dear Mr. Masih:

Thank you for your letter in which you describe your plans to build a school in honor of Christa McAuliffe, our esteemed teacher. This is a magnificent idea which would be a fine tribute to a great teacher.

At the present time the only biography of Christa McAuliffe that is in print has been published by the Washington Post Newspaper, Washington D.C. I'm sure that if you write to them for a copy, they will comply with your request.

I wish that I could contribute money to the construction of your school, but all funds received by us must go towards the scholarship established in her honor.

God bless you in your endeavors.

Sincerely yours,

Charles F. Foley  
Principal
