Monday 3rd February

1986.

Dear friends,

We were shocked to hear about the space shuttle disaster. We heard about it all when we came home from school and saw the pictures on television. We were very sorry to hear about your teacher Mrs. McAuliffe and we think she was very brave to take part in the mission. We feel sure you must still be sad about it all but we are thinking about you here in England.

We have been talking about the astronauts and we hope that the problems are soon sorted out and that man continues to explore space.
