date 30.1.86.

Dear Colleagues.

I would like to say how shocked we all were about the shuttle disaster. My class of eight and nine year olds have been doing a project about space and so were watching the Shuttle programme very closely.

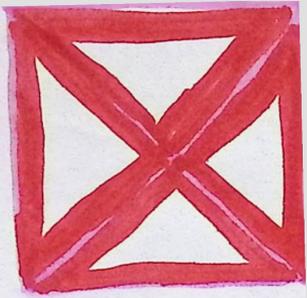

The letters were a spontaneous reaction to the accident, so I felt you would like to receive them.

I too wish to express my sympathy to you all, I am sure the deaths of seven such brave people, will not have been in vane.

Yours sincerely,

Susan Browning.

I'am very
Sorry

Dear Children

I'm very sorry to hear about
your teacher. It must of been
horrible when you knew. Your
teacher was a lovely lady I
wish I could do something
to help. I thought your teacher
was very brave to go up to
the moon.

Dear
children

We are very very sad at what
has happened to your teacher.
They won't send anybody up in a
space ship until they find out
what caused the trouble.

Dear Children

I am very sad about Challenger. when I heard what had happend on the tv I burst into tears. It must have been even more horrid for you that the teacher from your school died. Everybody who saw the video must have been very sad as well. Our class has been doing a project on astronomy it is very interesting. I am very upset.

Best wishes

Kerrie Lewis.

I am very sorry about Challenger I saw
it on TV. I am sure that it means
a lot more to you than to us. I am
glad that a parachute landed in the
sea, but I think it was only
a person from the rescue team.
