Jan. 31, 1985

Dear Students of Concord High School,
We feel very sympathetic for the loss of
your teacher. We were very surprised when
we saw the CHALLENGER explode. The accident
left us in a state of shock. The bad news
was televised all over Canada.

It happened during our lunch break.
Just before we went to lunch two groups
of people from our class had presented a
project about the Space Shuttle to the rest
of the class. We hope that nothing like that
happens again in the Space Shuttle program.

Sincerely,
Nick Bountouris
Jennifer Rodney
Gabriel Kasalhan
