To the Staff & Students:

As members of the Activators and Kids Care teams, two groups for higher standards in society, we would like to express our sincerest sympathy for the loss of an outstanding person in your school and community, Mrs. Christa McAuliffe. We saw her as an inspiring individual and a positive person who didn't look at life in a negative view.

As President Reagan said, "Space exploration is for the strong, brave and courageous." She was truly all of the above and much more.

We of the Activators and Kids Care teams did not know her personally, but only through television and newspaper interviews and a letter she wrote to the teachers of Nova Scotia before the tragic mishap.

Christa McAuliffe will be remembered in our minds and hearts as an inspirational and vibrant individual.

Our deepest sympathy
