Please find enclosed cards from the children of Grades 3 & 4 of St Vincent's Primary School. The school is in a working class area, where male unemployment stands at about 20%, but the children never fail to respond to others misfortune. They have already responded financially to the famine in Ethiopia, then the Sudan, besides the three Charities they support every year. You will see from the cards that their expressions of sympathy are simple, but very sincere. I have explained to them that you are receiving expressions of sympathy from all over the world and they realise what it would involve to reply to all of them. I can assure you they are happy to have had the chance to express their sympathy, as indeed we all wish to. We will continue to remember Mrs McAuliffe's family in our prayers.
