5th February '86

Dear Sir,

You must be wondering why  
a dental surgeon is writing to you from  
Australia. Relax! I am not suggesting  
an appointment!

My daughter Julia, aged 7 and  
I were very saddened to watch the  
events leading to Mrs. McAniff's death.  
We shared this dismay with the whole  
world of course. Julia, in particular, was

very distressed to see her children  
suffering on the television news.  
She has dwelt on this constantly  
and asked to write to the children.

Would you be good enough to pass  
on the letter? It is written to  
the best of her ability and with  
an awful lot of love.

I have written her full name and  
our home address on a separate sheet.

With greetings and good wishes to  
all at your school and the rest  
of the U.S.A.  
Shirley Adams
