The Headmaster.

Dear Sir.

I find it hard to write words that would convey to You, and the Students, that were being taught by Christa, the shock I felt when I witnessed on Television the tremendous Explosion that took the life of Christa and the Crew of "Space Shuttle Challenger"

She was indeed a very Brave Lady, and that I can assure You is the feeling of the English public in general, and I write on their behalf, take comfort in the knowledge that Christa will not be forgotten, this I also wish to say to her Husband and Children.

The time has come for the Class to be Brave and look foward to the future, You have a great Country, and You must all strive to be as Brave as Christa, and the Crew,

Bless You All

Ron Howse

Ex C.P.O. Royal Navy.
