Dear Sir

I write to express my deepest sympathy at the tragic loss of Mrs. Christa McAuliffe and the other Challenger crewmembers.

My warmest thoughts go out to you, your staff members, your students and, particularly, Christa's family. I felt, and still feel, deeply saddened at the loss and can very much appreciate how you all feel.

Here in Britain, we will all remember the crew of Challenger for who they were and for what they were going to do for science and for our future.

I have the greatest faith in, and enthusiasm for, your space program and we must, all of us, look to the future - that's what Christa would have wanted.

Take care,
Warmest regards

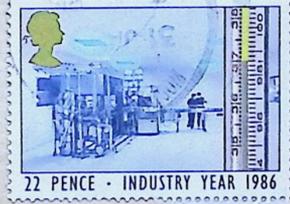

Martin Wace
