To the Principal and fellow students + teachers,

We

are writing on behalf of our school family,
Clayfield College, in order to extend our sincerest
condolences. We can't really begin to
understand the full extent of your grief, but
if it's any consolation, our thoughts are with
you. As we have a very family-orientated
college ourselves, we do realize the close
attachments that can form between teachers
and students. Now, with our warmest thoughts,
we'd like to leave you with the reassuring fact
that such a teacher as she was, one of obvious
positivity and vitality, will certainly be strongly
remembered in the hearts of many.

Yours sincerely, School Captains of 1986.
