Dear Sir,

We are sorry to hear that one of your teachers has died in a tragic accident in the Challenger space shuttle. We would like to express our deepest sorrow by sending you this letter. We have been doing a space project this term and have been following the space shuttle closely. We know you were looking forward to the live broad casts as much as we were. We have recently lost a close friend of the school, and some of your feelings are known to us. We send our hopes and best wishes, and want you to know that you have friends in England.

Yours Faithfully,
