***Bird's eye grain is a special design in the grain of certain woods. It is sometimes called burl grain. Bird's eye grain is a unique grain pattern that is only found in certain types of wood. Bird's eye grain received its name due to its small circular swirls that resemble the eye of a bird.**

****Moreen- a strong, ribbed cotton or wool fabric, used chiefly for curtains and upholstery.**

*****Pocket match safes, called pocket vestas in England, were designed to safely hold early friction matches, which were known to ignite unexpectedly when carried loosely in the pocket or purse. Although these handy containers are rarely seen today, from 1850 to 1915 match safes were extremely popular.**

******Bohemian glass, also referred to as Bohemia crystal, is glass produced in the regions of Bohemia and Silesia, now parts of the Czech Republic. It has a centuries long history of being internationally recognised for its high quality, craftsmanship, beauty and often innovative designs.**
