Over the course of 19 visits, each lasting 1-5 days, photographer Jonas Kulikauskas produced Yosemite People. From January 2014 to May 2016, he focused his lens on visitors, workers, volunteers, rangers, and residents of all ages within the National Park’s boundaries. Kulikauskas covered more than 7,000 miles during this period, making a 12 hour round-trip between his home in Sierra Madre, California and Yosemite Village for each visit. He was grateful to share the journey with his teenage son, Matas, on several occasions.
