

My Dear Father

I received your letter this afternoon and was happy to hear your eye was doing well. I hope your Mother will also soon be well. - Mamma's eye still continues inflamed but I think it is better than when I last wrote, she rode out yesterday and the day before to day has been raining so she could not go. - He has got the cow and she answers very well. - Eliza has a letter from Pierre to day he was very well and had just received your letter and the money for which he was very much obliged. - We had a large Meeting of the Society yesterday at Mrs Harely's. Besides the usual Ladies, Mrs Van Cortlandt -

Miss Beek and Mrs William Henry were
then. Tell him if he would come up here
perhaps the Fair Helen might do
something to console him. She enquires
very particular about him. The Society
Meets at home at the Manor house on
Sunday. The Fair is to be the 20th July
Mr Hunt has some news which he took at
the Lake the other day. Nearly finished
his picture of the Village is quite done
and looks very well it is the same of the
one at the Academy. —

The water was let in the Aqueduct to day
as far as Tarrytown it took five hours
to get here, Mr Jones, Davidson, and
and some other came down in it in a boat.
Mamma sends you and the children some
flowers, and with the rest of the family
gives me in love

Most affectionately

Your Daughter

Emma
