

Lapphni
Dem Krong,

Canton, April 21. 1835

I received your short note of the
4th inst. Calling upon me again for a statement
of your account: ~~that~~ you will without doubt
have received me this, for "Mary Francis", with the
reasons why it had not been sent before, and
hope the same will have proved satisfactory.

I am ready to accept your draft
for the Balance, or as near to it as you can
come, or should you not have drawn, I can remit
the amount in L. A. dollars, which I find a difficulty
in passing here, but are equally current in Manila.
Now that you have furnished me with the data
upon which to act, I will see that ~~the~~ money overpaid
on Washing, is returned - but in the absence of
the Comptroller cannot do it.

I have no objections to taking the Comsha Rates
of Ten, but do not know what value to fix
upon them - however I believe there are only two

or there - and there can be no difficulty about it
I did not receive so much by too dull as the
previous year, and after I wrote you upon the
subject I think there were no additions to your
small stock:

Howland will take your Cigars over in the
Morris should he go, as he probably will
hoping for a more lengthy communication from
you ere long. I remain, very sincerely

Your friend

A. K. M.

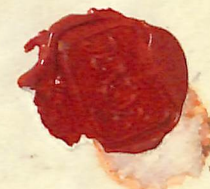

Will. Wright for Decker, Oct 9
