THE Aspects this Month are generally good, save an Opposition of Saturn and Venus, and that may throw some Difficulties on the Affairs of Matrimony, and some unhappy Matches may be contracted this Month. The Constitution of the Air may a little incline to peripneumonick and pleurittick Fevers, Coughs, Asthmas, and Disorders of the Lungs.

1745. FEBRUARY hath 28 DAYS.

COULD all our Care elude the gloomy Grave,
Which claims no less the Fearful than the Brave
For lust of Fame, I should not vainly dare
In fighting Fields, nor urge thy Soul to War:
But since, alas! ignoble Age must come,
Disease, and Death's inexorable Doom:
The Life which others pay, let us bestow
And give to Fame what we to Nature owe:

P. Hom.

MARCH hath 31 DAYS.

THE Aspects this Month are violent and extraordinary, portending burning of Houses, violent Deaths by unlucky Accidents, Feuds, Riots, Affrays and bloody Noses; the Thoughts of Peace among the Nations are banished and all Parties put on an angry look; but Mars and Venus, and Jupiter and Mercury have a friendly Correspondence; hence I conclude that Lovers and Flatterers keep their Countenances.

THE most considerable Configuration among the Planets this Month is the Opposition of the Sun and Jupiter, which portends Debates among the Clergy upon some nice Points in Divinity; but no good can come of Oppositions, ergo, The Matter is left in the dark. The Constitution of the Air at this Time inclines to nervous flow Fevers and vernal Intermitants and Stagnation of the Blood.

ENGLAND is govern'd by Mars, Spain by Jupiter :
 This same Mars and Jupiter meet this Month in the
 Sign Scorpio; but as Mars is essentially dignified in his
 own House, to his Steel, will I hope cut down the Priest-
 Craft of Spain and France both; except he is betrayed by Saturn
 and Mercury, who meet in the very Equinox, in Opposition to
 the Ascendant of England: A Circumstance very remarkable.

1745. SEPTEMBER hath 30 DAYS.

THE Sun and Saturn meet in Libra this Month; the First Time of their meeting in this Sign since the Year 1717. As bloody Fluxes increased when they met in Virgo the Years past; so if Autumnal Intermitants do not increase upon their meeting in Libra, the two Years to come, I shall be as thankful as a Physician can be for Health at any Time.

LOOK round how Providence bestows alike,
Sun-shine and Rain to bless the fruitful Year,
On different Nations, all of different Faiths;
And (tho' by several Names and Titles worshipped)
Heaven takes the various Tribute of their Praise,
Since all agree to own, at least to mean,
One best, one greatest, only Lord of all.

1745. NOVEMBER hath 30 DAYS.

THE peaceful Sun and Jupiter are joined this Month, and would bless the whole World with their benign Influence, but a violent Quartile of Saturn and Mars follows; where there are Campaigns there will be a bloody Battle. If our Indians in League hold their Integrity, now let them have the Credit of it in Ballance of their former Accounts.

Of endless Winter and perpetual Rain.
Betwixt th' Extreame, two happier Climates hold
The Temper that partakes of Hot and Cold.
