

Albany Thursday

My Dear Child 10th of Oct. 1798

The Account you give me of
your health has relieved me from
that Anxiety which I endured, whilst
I thought you dangerously indisposed

— Your mama does not venture to
send her of Mr Church's pigs, as she has
advised them to be cut down, but I am
persuaded if you write to him to to your
sister, and mention that you will observe
him of the breed, he will let you have
them. — (Miss Catherine)

Catherine has charge of the black head.
for your store, —

When the and Mr. Tordych returns
let them come in a Stage that you

may not be put to the inconvenience
of sending a carriage, unless you should
obtain an order for the Hogs in which
case it will be best to send a carriage
& if you can a bag of Buck-wheel meal

I can almost walk, and as my
limbs daily relax I hope soon to obtain
the use of my legs

Your sister Margaret would have already
been with you, but for the interference
of a fit of the Gout, the weather
much broken down and may probably
go to fetch her sister

All here soon as home by your father
& the children, Philip has had
the tooth ~~tooth~~ but is quite well since
the tooth has been extracted

Admiring Dear Child

Yours ever most affectionately

M. Shergill

a slave;
