My dear Brother

agreeably to your wish we have extended your credit with
Messrs J. I. Rose & Co. One thousand Dollars. So that we would wish you not to
hurry yourself in your journey. And should this reach you in time we would
advise you when at Naples to visit Sicily. We certainly would wish
you to visit England, and hope the above sum will accomplish all.

I have written you very particularly by this opportunity and of this
date, which letter I have directed Messrs Rose not to forward but by a
safe conveyance, and the object of this letter is merely to take any means
of informing you of the extension of your credit, so that you may govern
yourself accordingly in your route. This Messrs Rose could have done
as well as I. but commercial men are so taken up with their own con-
:cerns that they are apt to forget these trifling, but sometimes important matters
in their consequence, belonging to others.

We are all well, and for particulars I must refer you to my
letter to G. of this date considerably long.

I am

My dear Brother

Yours affectionately

Wm. Irving Jun^r
