April 21st 1898

Mr Wm. H. Messerum
Dear Sir

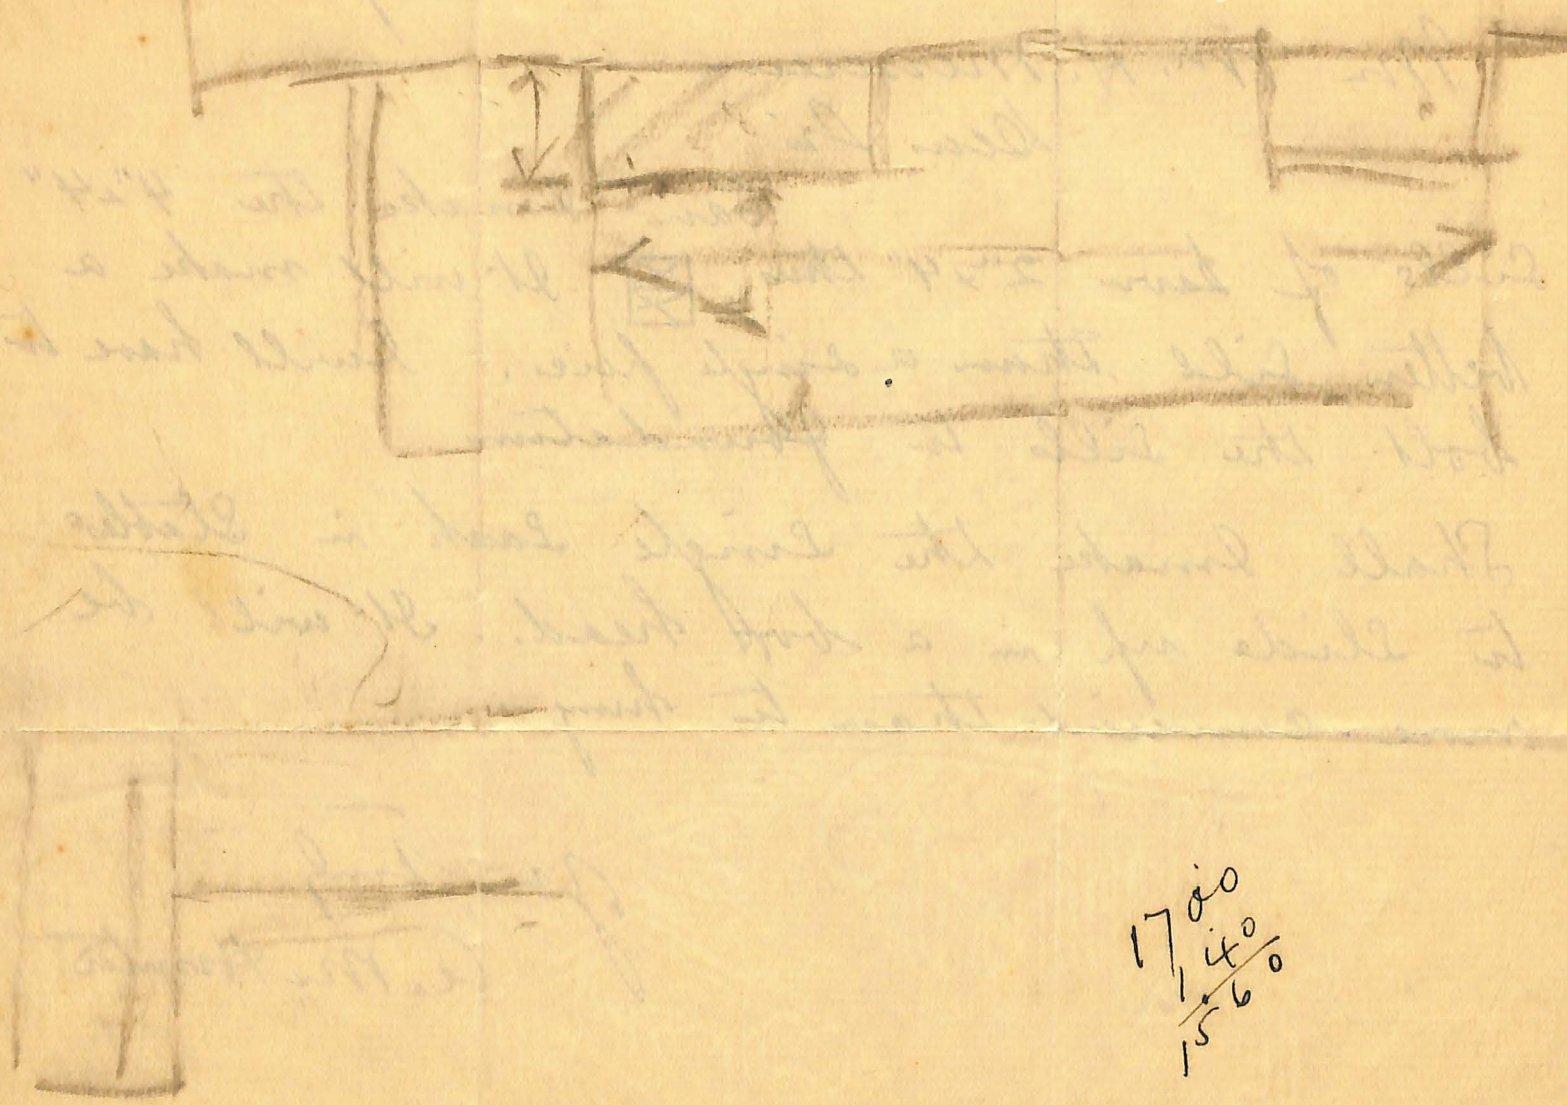

Can I make the 4"x4"
Sills of two 2"x4" thus . It will make a
better Sill than a single piece. I will have to
bolt the Sills to foundation

Shall I make the single Lash in Stables
to slide up in a bolt head. It will be
more convenient than to hang -

Yours Truly
A. M. Hunter
