Mr. Irving, Esq.

Manila

S. I.

I confirm my last
reports of Mary. Since then, the Ship
Galaxy (Gould & Co) of New York, Kent of
Boston (D. Sturge) and Rich^d Allen from
Baltimore (Wood & Phil^{ls}) have arrived to our
consignment, bringing dates to 21st April -
"No" War with "France". tho' 'twas not
wholly abandoned, a Frigate had been
sent.

to France for Mr Livingston, and the French
Minister had left for France — etc —
we can learn better how things will go on
in reference to France, ere long —

These Ships brought no letters save to Consignees
they are out on private expeditions principally —
French Goods had advanced in N York — and
Teas were all sold long ere the 21st April —

Old Teas, some of these vessels are after
last March Teas — but fear they will find but
few — other vessels from N York for the same
purpose, is momentarily looked for, which were
to have sailed in April May —

The Captain of the Salazary, says war with
France, is "inevitable" but by other sources —

it appears to me, that a man would never
be appointed by Congress, — the French will
not leave Washington, "Anchorage" went to see her
Depart, that these vessels brought not
letters, but to Congress — a few newspapers
were received, no particular news —
Anchored outside Long Bay Moon
Sailed in Chinese fast boat in the night
left than arrival said to be —
will make my arrival to Tientsin —
but there is nothing alarming in it, that
he will not be molested by French
Ships of war on his passage home —

*I have heard that
the French would not leave
Washington, "Anchorage" went to see her
