

Villa Romarine
San Jean---Cap Ferrat
A/M

18/12/23

My dear Cousins

We left Mont Ena on the 7th of Nov. Ena came in her car with Gabriel's brother as chauffeur, but I came by rail with Gabriel, and after an easy journey we reached here nearly together.

Our villa is very pleasantly situated on height in the middle of the Cap Ferrat, surrounded by pine forests.

I must tell the truth and say that I can only walk a few steps at a time, but the Dr says that "my only illness is my age" ! It is not very comforting, considering that I feel young enough from the hips up !

But don't understand me as complaining for I have had my share of the enjoyments of life and can enjoy them still !

We run every day to Nice or Monte Carlo or some attractive place along the coast, and I congratulate myself on being in the south. How I wish you were here with us, it is a selfish wish I know for I am not a very brilliant companion. Anyhow, come as soon as you can. We awake now to a most perfect day which tempts us to all sorts of adventures .

I must now wish you all good things for 1924
With love

My dear Cousin

We left Mont Eux on the 7th of Nov. The case

in her car with Gabriel's brother as chauffeur, but I came by

with Gabriel, and after an easy journey we reached here

nearly together.

Our villa is very pleasantly situated on height in the middle

of the Cas Forest, surrounded by pine forests.

I must tell the truth and say that I can only walk a few steps

at a time, but the Dr. says that "my only illness is my age".

It is not very comforting, considering that I feel young enough

to give the boys up!

But don't understand me as complaining for I have had my share

of the enjoyments of life and can enjoy them still!

We run every day to Nice or Monte Carlo or some attractive

place along the coast, and I congratulate myself on being in

the south. Now I wish you were here with us, it is a selfish

wish I know for I am not a very brilliant companion.

Anyhow, come as soon as you can. We wait for you to a point

perfect day which brings us to all sorts of adventures.

I shall now wish you all good things for 1924

With love

Charles de Gaulle
