

C. H. CURTISS & CO.

HARDWARE,

PLUMBING & TINNING.

STEAM, HOT WATER AND HOT AIR HEATING.

Tarrytown, N.Y. Jany. 15, 1904.

Mr. W. H. Mersereau,

Dear Sir:-

We did not know that you were having the quotations sent us, and as they were received this morning we are able to send the estimates today. The cost of putting in shower, complete, with rubber curtain, on first floor would be One Hundred & Sixty six Dollars.

The cost of putting in the 5 ft. Roman Bath Tub, and fixtures on second floor, after removing present shower, would be One Hundred & Ninety two Dollars. This includes moving the soil and vent pipes, mentioned in our letter of yesterday, as it will be necessary in order to get in the 5 ft. tub.

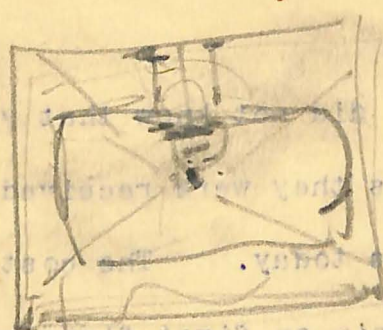

The above figures do not include repairing the tile where bath and pipes are taken out, or grading tile floor for shower. We sent your sketch to W. H. Jackson & Co., stating what work was contemplated, and they say the whole thing would not exceed Fifty Dollars, but believe it would be cheaper to have it done by days work. We are,

Yours truly,

C. H. Curtiss & Co.

The cost of putting in the 5 ft. Roman Bath Tub, and six-
 turns on second floor, after removing present shower, would be One
 hundred & thirty two Dollars. This includes moving the soil and
 vent pipes, mentioned in our letter of yesterday, as it will be
 necessary in order to get in the 5 ft. tub.

The above figures do not include removing the tile work and
 and pipes are taken out, or breaking tile floor for shower.
 sent your sketch to W. Jackson & Co., stating what work was con-
 templated, and they say the whole thing would not exceed fifty
 dollars, but believe it would be cheaper to have it done by day.
