My Dear Child

Your letter to your sister has
created a painful sensation amongst
your mother's minds, we did not
know that you had been so very
much indisposed and are still
very unwell, Your mother cannot
leave me in my helpless condition
or she would go to you, but we both
intend you to come up without
delay, not only as a change of air
may be beneficial but as better
medical assistance can be obtained
here, — If it should be necessary

one of your sisters will go down
to bring you up, If Sally's condition
is such that she cannot attend you
delays my child are dangerous
and I, being thing forewarned you from
coming as early as I comfortably with
you should, do not feel to write to you

I mention much as I have
been for some time past—

Your mother & sisters I mention
in love by you and to Sally and
to the children. God bless you all
Yours ever affected by
Elizabeth

Your sister Angelina is affected to day

O Schuyler
