HARDWARE,
PLUMBING & TINNING.

STEAM, HOT WATER AND HOT AIR HEATING.

Tarrytown, N.Y. May 4, 1903.

Mt. W. H. Mersereau,

Dear Sir:-

Your favor of the 2nd. is at hand, and we are very glad to hear from you again, and thank you for your good wishes.

We hope the world is dealing generously with you.

Mr. Irvinf wrote us some time ago to cut off the gas light at the gate, and we sent our man Stone, who had done most of the work on the building, to cut off the gas. We think he disconnected the pipe out by the gate and capped it up.

On the first of April, there was a general strike of all trades (except masons), which still continues, without prospect of settlement. I have been extremely busy, in consequence, striving to attend to urgent calls, but have found it an impossibility to attend to all. Will drop a line to Mr. Irving, and let him know that we will give the matter attention at the earliest moment possible. We remain,

Very truly yours,
